10. OWNER'S OBLIGATIONS

There are certain Owner's obligations that must be fulfilled to maintain the validity of the Kawasaki warranty.

Fulfilling these obligations will increase product life and decrease overall maintenance costs.

- The owner must deliver, at his expense, the complete unit to an authorized Kawasaki dealer (for the product line involved) for all warranty services. This includes recalls.
- The owner is responsible for all scheduled maintenance outlined in the periodic maintenance chart in the owner's manual. This includes daily checks. This is the bare minimum, machines used in harsh conditions may require additional maintenance. It is highly recommended that a trained Kawasaki technician perform the scheduled maintenance. Owners do have the choice in performing this maintenance but must keep records and receipts for all work performed on their machine. Improperly performed maintenance may result in a denial of warranty claim.
- The owner must immediately inform an Authorized Kawasaki Dealer of any trouble and have the Dealer inspect the product within seven days of the first occurrence of such trouble.
- The break-in procedure for your product as specified in the Owner's Manual must be followed.

NOTE: It is recommended that the product be returned to the original selling dealer for service and warranty repairs since scheduling and prioritizing of repairs is at the option of the repairing dealer.

The satisfaction and goodwill of owners of Kawasaki products are of primary concern to Kawasaki Dealers and Canadian Kawasaki Motors Inc. In the event of a warranty matter, servicing problem or other difficulty occurs, the following steps are suggested;
