NEW MODEL PRESS RELEASE

2023 KAWASAKI MULE™ PRO LINEUP TRUSTED, TRIED AND TRUE

For over 30 years, Kawasaki MULE™ side x sides have offered unparalleled capability to take on both work and play with complete confidence. The Kawasaki MULE™ PRO family features the fastest and most powerful MULE™ side x sides ever built by Kawasaki with single-row and two-row model variations. The MULE PRO is built for getting the job done, whether it's helping transport passengers or cargo on the job site or the trail.

The MULE PRO-FXT™ series of side x sides offers six trim variations for 2023 and features a three- to six-passenger Trans Cab™ system and can easily transform from two rows of seating to a single row for additional cargo storage. MULE PRO-FXT models are powered by an 812cc three-cylinder, fuel-injected gasoline engine that delivers 48 lb-ft of torque. Power from the engine is passed through a precisely tuned Continuously Variable Transmission (CVT) with an electronically selectable 2WD/4WD system and dual-mode locking rear differential, enhancing driver control in a variety of conditions.

WARN® VRX 45, the WARN logo and THE RED HOOK STRAP are registered trademarks of Warn Industries, Inc.

The 2023 MULE PRO-FXT™ Ranch Edition Platinum is built on the Ranch Edition's lush interior and adds soft, high-quality leatherette seats and interior padding that is sure to become any property owner's pride and joy. Standard features include vehicle protection items like brush guard, headlight guards and a rear bumper. Additional features include a Warn® VRX 45 powersport winch, quad LED headlights, cast aluminum wheels, under seat storage bin, rearview mirror, sun top and anti-cinch seatbelts in the front row. The styling is highlighted by premium color and badging, luxury leatherette seats, matching shoulder restraints and rear passenger grab bar.

The MULE PRO-FX™ series offers three trim variations for 2023 and is a single row side x side that seats three and has a bed big enough to fit a full-size pallet.

The MULE PRO-FXR™ features increased recreational abilities and premium styling that further establishes the compact side x side as a dependable work partner.

For 2023, the MULE PRO-MX™ series of side x sides are offered in four trim variations and come equipped with Electric Power Steering (EPS). The MULE PRO MX offers a comfortable fit for two passengers, the muscle to cover more ground in less time, and the capability to get out for some fun when the work is done. Powered by a 695cc single-

cylinder digital fuel injection gasoline engine that delivers 42.7lb-ft of torque. Power from the engine is passed through a precisely tuned Continuously Variable Transmission (CVT) with an electronically selectable 2WD/4WD system and a dual-mode locking rear differential, enhancing driver control in a variety of conditions.

The 2023 MULE PRO-MX™ SE borrows design cues from the MULE PRO-MX™ EPS LE model and features a high-quality painted hood, premium color and graphics, electronic power steering, cast aluminum wheels, inner LED headlights, and a sun top and comes equipped with a factory installed 3,000 lb. winch with remote control for distanced operation.

Rounding out the MULE PRO family for 2023 is the diesel-powered MULE PRO-DXT™ EPS Diesel FE that is a Fleet Edition model. The MULE PRO diesel-powered series is perfect for any ranch, jobsite, farm or fleet. Designed to work hard, the MULE PRO-DXT EPS Diesel FE features the three- to six-passenger Trans Cab system that quickly converts the vehicle from single-row to double-row seating. The Fleet Edition model features a plastic roof, high visibility orange seat belts, horn and a universal key. This model is delivered in a Bright White color scheme, allowing customers to personalize the vehicle with their logo.

Each MULE PRO side x side is built with a tough chassis that provides a smooth ride through the use of independent suspension front and rear. The suspension provides a generous 8.7” of travel and excellent ground clearance. The entire MULE lineup is built to be the hardest worker on the jobsite.

To top it off, all Kawasaki MULE side x sides are confidently backed by the Kawasaki STRONG 3-Year Limited Warranty.

ABOUT KAWASAKI

Kawasaki started full-scale production of motorcycles over a half century ago. The first Kawasaki motorcycle engine was designed based on technical know-how garnered from the development and production of aircraft engines, and Kawasaki's entry into the motorcycle industry was driven by the company's constant effort to develop new technologies. Numerous new Kawasaki models introduced over the years have helped shape the market, and in the process have created enduring legends based on their unique engineering, power, design and riding pleasure. In the future, Kawasaki Motors, Ltd. is committed to maintaining and furthering these strengths which will surely give birth to new legends.

Kawasaki Motors Corp., U.S.A. (KMC) markets and distributes Kawasaki motorcycles, ATVs, side x sides, and JET SKI® watercraft through a network of approximately 1,100 independent retailers, with close to an additional 7,700 retailers specializing in general purpose engines. KMC and its affiliates employ nearly 3,100 people in the United States, with approximately 260 of them located at KMC's Foothill Ranch, California headquarters.

Kawasaki's tagline, "Let the good times roll.®", is recognized worldwide. The Kawasaki brand is synonymous with powerful, stylish and category-leading vehicles. Information about Kawasaki's complete line of powersports products and Kawasaki affiliates can be found on the Internet at www.kawasaki.com
