## NEW MODEL PRESS RELEASE

# 2025 KAWASAKI KX™450, AND KX™450X MOTORCYCLES

## THE BIKE THAT BUILDS CHAMPIONS

A testament to the relentless pursuit of excellence, the Kawasaki KX™450 motocross bike has served as the trusted companion of champions, propelling them to glory on the world's most challenging tracks. The KX family remains a dominant force in motocross and supercross today, with the KX™450 continuing to be one of the leading motocross bikes in its class. With development cues taken from the Monster Energy® Kawasaki factory racing team, the 2025 KX450 continues to be one of the strongest off-road machines on the track.

### **KX™450**

Completely redesigned in 2024 to set new benchmarks in motocross performance, the KX450 returns for 2025 with its race-winning features intact. Building upon its legacy of dominance, the KX450 remains the pinnacle of motocross excellence, blending cutting-edge technology with a proven championship-winning pedigree. With its powerful 449cc engine, lightweight aluminum frame, high-performance Showa suspension, ODI Lock-On grips, Brembo front brakes, KTRC, riding modes with handlebar-mounted switch box, and Bluetooth® connectivity using RIDEOLGY THE APP KX, the KX450 continues to lead the way. As riders prepare to tackle the challenges of the upcoming season, they can trust in the unrivaled performance and reliability of the KX450 to carry them to victory once again.

### **KX™450X**

Returning alongside the KX450 and KX450SR is the 2025 KX™450X, helping to further expand and solidify the KX family of off-road motorcycles. The 2025 KX450X is an off-road cross-country competition model that features the same championship-proven technology found on KX race machines and has been purposely tuned for off-road competition. The addition of a 21"/18" wheel combination allows the power of the KX450X to be transferred directly to the ground and the Dunlop AT81 tires make sure the bike can handle the obstacles found in cross-country riding. A high-performance 49mm inverted coil-spring fork and New Uni-Trak® rear suspension are inherited from its KX450 brethren, with

the spring rates and damping settings optimized for the cross-country environment. The KX450X also comes with a convenient side stand for when at a stop.

## ABOUT KAWASAKI

Kawasaki started full-scale production of motorcycles over a half century ago. The first Kawasaki motorcycle engine was designed based on technical know-how garnered from the development and production of aircraft engines, and Kawasaki's entry into the motorcycle industry was driven by the company's constant effort to develop new technologies. Numerous new Kawasaki models introduced over the years have helped shape the market, and in the process have created enduring legends based on their unique engineering, power, design and riding pleasure. In the future, Kawasaki Motors, Ltd. is committed to maintaining and furthering these strengths which will surely give birth to new legends.

Kawasaki Motors Corp., U.S.A. markets and distributes Kawasaki motorcycles, ATVs, side x sides, and JET SKI® watercraft through a network of approximately 1,100 independent retailers, with close to an additional 7,700 retailers specializing in general purpose engines. Kawasaki and its affiliates employ nearly 3,100 people in the United States, with approximately 260 of them located at Kawasaki's Foothill Ranch, California headquarters.

Kawasaki's tagline, "Let the Good Times Roll.®", is recognized worldwide. The Kawasaki brand is synonymous with powerful, stylish and category-leading vehicles. Information about Kawasaki's complete line of powersports products and Kawasaki affiliates can be found on the Internet at [www.kawasaki.com](http://www.kawasaki.com).
