

## New Model Press Release

July 7, 2020

DO NOT RELEASE BEFORE JULY 7, 2020

### 2021 KAWASAKI MULE PRO™ SERIES

## TRUSTED, TRIED AND TRUE

The Kawasaki MULE PRO™ series features the fastest and most powerful MULE™ side x sides ever built with both single and two-row models available. They are Trusted, Tried and True to be the right tool for anyone who needs to transport passengers or cargo on the jobsite or on the trail.

New for 2021, the MULE PRO-MX™ side x side is available with and without Electronic Power Steering (EPS). The non-EPS MULE PRO-MX brings more value to the mid-size MULE PRO lineup while still offering the quality and durability Kawasaki is known for. A comfortable fit for two passengers, the muscle to cover more ground in less time, and the capability to get out for some fun when the work is done.

Powered by a 695cc three-cylinder fuel injected DFI® gasoline engine that delivers 42.7lb-ft of torque. Power from the engine is passed through a precisely tuned Continuously Variable Transmission (CVT) with an electronically selectable 2WD/4WD system and a dual-mode locking rear differential, giving the driver control in a variety of conditions.

The diesel-powered MULE PRO-DX™ and MULE PRO-DXT™ models also return for 2021 to the diverse line of side x sides. The MULE PRO diesel-powered series is perfect for any ranch, jobsite, farm or fleet. Designed to work hard, the three-passenger MULE PRO-DX line comes equipped with the largest cargo bed in its class, while the MULE PRO-DXT features a class-exclusive three- to six-passenger Trans Cab™ system that quickly converts the vehicle from single-row to double-row seating. To top it off, all Kawasaki MULE side x sides are confidently backed by the Kawasaki STRONG 3-Year Limited Warranty.

Each MULE PRO side x side is built with a tough chassis that provides a smooth ride through the use of independent suspension front and rear. The suspension provides a generous wheel travel and excellent ground clearance to tackle any obstacle or task.

## **ABOUT KAWASAKI**

Kawasaki Heavy Industries, Ltd. (KHI) started full-scale production of motorcycles over a half century ago. The first Kawasaki motorcycle engine was designed based on technical know-how garnered from the development and production of aircraft engines, and Kawasaki's entry into the motorcycle industry was driven by the company's constant effort to develop new technologies. Numerous new Kawasaki models introduced over the years have helped shape the market, and in the process have created enduring legends based on their unique engineering, power, design and riding pleasure. In the future, Kawasaki's commitment to maintaining and furthering these strengths will surely give birth to new legends.

Kawasaki Motors Corp., U.S.A. (KMC) markets and distributes Kawasaki motorcycles, ATVs, side x sides, and Jet Ski® watercraft through a network of approximately 1,100 independent retailers, with close to an additional 7,700 retailers specializing in general purpose engines. KMC and its affiliates employ nearly 3,100 people in the United States, with approximately 260 of them located at KMC's Foothill Ranch, California headquarters.

Kawasaki's tagline, "Let the good times roll.®", is recognized worldwide. The Kawasaki brand is synonymous with powerful, stylish and category-leading vehicles. Information about Kawasaki's complete line of powersports products and Kawasaki affiliates can be found on the Internet at [www.kawasaki.com](http://www.kawasaki.com).
